PROUD TO BE BROOKE

GLOBAL STRATEGY
2016–2021
Brooke was established in 1934 to treat horses left in Egypt after the First World War. The spirit of our founder, Dorothy Brooke, remains at the heart of the charity – her respect for working horses, donkeys and mules, and her compassion for their owners created an inspiring legacy. In recent years we have expanded to deliver programmes across Africa, Asia and Latin America. Today Brooke has a substantial presence in ten countries across the world. It is now time for the next chapter of Brooke’s story.

Brooke has bold ambitions for making a positive impact on the lives of working equines around the world. These animals are an integral part of the livelihoods of hundreds of millions of the world’s poorest people. During 2016 we will achieve our goal of improving the welfare of two million animals per year. However, there are more than 100 million working horses, donkeys and mules and many are suffering in the course of their daily lives – but it doesn’t have to be this way.

This Global Strategy sets out how Brooke intends to transform the lives of even more vulnerable working horses, donkeys and mules over the next five years. Building on our considerable experience we will strive to make the most effective use of our resources to bring about sustainable improvement. We know that with your support, there is so much more we can do to make a lasting change to animals in the greatest need. Together we will create a better world for the next generation. Together we are proud to be Brooke.

Petra Ingram, Brooke Chief Executive Officer
OUR STRATEGIC GOALS FOR 2021

Global Reach: To help more working animals in need in more places around the world.

Sustainable Improvement: To make lasting change by working with a wide range of people and organisations that can directly or indirectly improve the lives of working animals.

Why Brooke?

Who we are:
Brooke is an international animal welfare organisation with over 80 years’ experience dedicated to improving the lives of working horses, donkeys and mules.

What we do:
Brooke protects and improves the lives of working horses, donkeys and mules that fundamentally underpin the livelihoods of some of the world’s poorest communities.

Why we do it:
112 million working horses, donkeys and mules provide invaluable support to daily life for an estimated 600 million people in some of the poorest places in the world, through haulage, transportation and production. Healthy working horses, donkeys and mules help to put food on their tables, send their children to school and build better futures for themselves and their families. We are proud to deliver significant and lasting change.

How we do it – our Theory of Change:
Animals can’t change their welfare, but people can. Our work builds on this in three ways:

Communities: working with communities to provide them with the skills and support to unlock their compassion for animals and to feel the benefit that brings to their livelihoods.

Services: working with local health services, farriers and others to strengthen their skills so owners can get their animals the help they need when they need it.

Advocacy: working with governments at all levels and international bodies such as the UN to provide support and prevent abuse for practical and long-lasting change.

Our values underpin this approach and ensure Brooke is recognised as an international authority on equine welfare.

Our global presence
Brooke currently works in these countries to achieve change across three continents.

Our Values
“We are proud to be Brooke. We are resourceful, share new ideas and help each other succeed. Together we make change happen.”
WHAT WILL SUCCESS LOOK LIKE?

In order to achieve our strategic goals of Global Reach and Sustainable Improvement we have identified four strategic objectives: Scale, Income, Quality and Impact.
Objective 1
Increase the scale and reach of our work with animals
- More working horses, donkeys and mules in greatest need will be reached
- Policies and laws will change to make a positive difference to working horses, donkeys and mules
- Recognition of contribution of working horses, donkeys and mules to livelihoods will be improved
- Partnership and collaboration with other organisations will be increased to extend our reach

Objective 2
Grow income and awareness to increase impact
- A diverse funding portfolio will deliver increased annual net income
- Cost income ratios will be more efficient
- External audiences and potential donors will know more about Brooke
- Respectful and personal engagement will further improve donor relationships

Objective 3
Deliver programmes to Brooke standards
- Empowered communities will make change happen through collaboration, shared learning and specialist expertise
- Sustainable health, farriery and other services that people can rely on will be available long after we have gone
- Policy-makers’ perspectives will be changed with evidence and advocacy
- Research and learning will further strengthen our approach

Objective 4
Increase accountability to donors and beneficiaries
- Ability to measure impact in the short and long term will be improved through implementation of a robust and systematic monitoring and evaluation system
- Plans that rest on accurate and transparent data will increase effectiveness and efficiency
- Sustained welfare improvements after exit will be evidenced
- Optimal use of available resources will maximise value
OUR ENABLERS FOR SUCCESS

Our success will depend on being an excellent animal welfare organisation, driven by standards where advocacy, innovation and evidence are at the heart of everything we do. We believe this approach will enable us to achieve the strategic goals and objectives of Brooke.

“Donkeys are a key asset for one of Concern Worldwide’s most important groups, poor women.”

Dominic MacSorley, CEO Concern, Worldwide

“Thank you to Brooke for making a positive difference to my work – it’s clear that my work is better now.”

Lamine Sow, a farrier in Senegal for 20 years

“Donkeys are a key asset for one of Concern Worldwide’s most important groups, poor women.”

Dominic MacSorley, CEO Concern, Worldwide

“I tried unsuccessfully to treat my donkey and finally found the Brooke Community Equine Welfare Team on my doorstep in the coal mine community. My donkey was able to work again and put my income on track.”

Mr. Muhammad Balqias, coal mine donkey owner, Pakistan

“I tried unsuccessfully to treat my donkey and finally found the Brooke Community Equine Welfare Team on my doorstep in the coal mine community. My donkey was able to work again and put my income on track.”

Mr. Muhammad Balqias, coal mine donkey owner, Pakistan

“My study on ‘An impact assessment tool for an equine welfare project in India’ got selected by the International Society for Applied Ethology congress 2015 in Japan, which gave me the opportunity to interact with world communities working in the field of animal welfare.”

Azeem Ahmad, Welfare Assessor, Brooke India

“I tried unsuccessfully to treat my donkey and finally found the Brooke Community Equine Welfare Team on my doorstep in the coal mine community. My donkey was able to work again and put my income on track.”
